# "... smart professionals need more than outdated tactics ... they need a **new** game plan"

## OVERVIEW

Years ago, those who sought success and financial stability went off to school, graduated with a degree, got a steady job and retired peacefully. But times have changed. To succeed in today's business world, smart professionals need more than outdated tactics. They need a new game plan.

Companies everywhere are downsizing, going virtual, or simply going offshore. It's almost unheard of to stay in the same job for more than ten years. And long-term stability and financial freedom, the holy grail of corporate life, is more

elusive than ever before. Even seasoned professionals cannot afford to make a major career mistake.

### We have just the solution.

**Quantum PROFESSIONAL!™**, an executive coaching program for motivated professionals, is ideal for people who are hungry for a new, proven way to prosper in today's highly volatile corporate landscape.

## SOLUTION

**Quantum PROFESSIONAL!™** is a one-on-one executive coaching

program designed to help you identify and accomplish your professional goals faster than you could your own.

Through the use of the DiSC® Classic Profile System and our advanced five-stage Quantum Delivery Approach, we give you the insight and confidence you need to fully exploit your strength and growth areas, identify work characteristics that best fit your unique personality and management style, and discover what you truly want out of your professional life.

Savvy professionals everywhere

are turning to Quantum Identity Group to gain an "unfair" advantage over their competition.

Our executive coaching solution is not for the faint of heart, however. It is a highly interactive process that requires clients to confront ways in which they may be their own worst enemies, preventing themselves from achieving the results they desire.

And unlike traditional coaching methods, we do not perform "techniques" on our clients. Instead, we partner with you in your developmental process. We understand that professionals

require tough companions who are willing to join them in their most difficult work challenges; standing shoulder to shoulder with them in their professional journey towards greater competence and effectiveness. We also understand that you are the expert in your respective field, not us. Our role is simply to challenge you to work authentically and bring a more integrated self to your profession.

At its heart, executive coaching is a voluntary interaction where the coach is neither responsible nor accountable for the outcomes of the person being coached. As such, the client must truly want

an increase in performance and productivity in order for our program to be most effective.

Motivated clients will experience powerful professional insights, a greater self-awareness, and a rapid return on investment.
